Art Unit: 3764

Claims 1-8, 10-15 are allowed.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 19 is rejected under 35 U.S.C. 103(a) as being unpatentable over Younghusband in view of Karalius.

Younghusband teaches a device comprising a tube (13) having opposite ends and a cylindrical interior said tube having a degree of bendability. The device of Younghusband including a flexible rod in the form of a pipe cleaner and each end of the tube having a closure.

Younghusband does disclose his device as including a rod member having a cross section of a rectangular configuration.

Karalius teaches providing a pipe cleaner wherein the rod component of the device is rectangular.

Given the above teaching the examiner notes that it would have been obvious to one of ordinary skill in the art to manufacture at least a portion of the rod of Younghusband of a rectangular cross section for the purpose of providing an edge for the cutting of residue from the interior of the pipe.

The examiner further notes that to extrude tube is obvious in the art of tube manufacture and it would have been obvious to one of ordinary skill in the art to

Art Unit: 3764

manufacture the tube of Younghusband of an extruded process and then put an end cap on said tube. The examiner hereby take Judicial notice above this process.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication should be directed to Jerome Donnelly at telephone number (571)272-4975.
